Homework Sketch: From a Different Angle

Draw something that is very familiar to you, but from an angle that you don't normally see. For example, you could climb a tree and draw a picture looking down (be safe), you could draw the bottom of a show like the example here, you could draw the underside of a car, etc. The possibilities are endless! You will have two weeks to work on this before it is due.

By Kayla Tourville

Grading Criteria:

Created a drawing that shows a familiar object from a different angle

- **Value**

Used the space of the paper

Added detail in drawing

Shows effort in work
